

Happenings

May 2011

Thank You!

Special thanks to everyone who made our recent Mother's Day Luncheon such a success. Everyone enjoyed the beautiful harp music by Harriet Peters and our family photos were made possible thanks to Darrell and Gan Bledsoe, Karen's sister and brother-in-law, of Ona. We always enjoy these special events and getting to see our residents and their families having such a good time. Father's Day is coming up in June, so be watching the mail for a special invitation to help celebrate those special men in our lives.

Marshall Student Volunteers

Since February, we have been privileged to partnership with the MU Department of Communication Disorders. During that time, Leann Fortner's undergraduate Neurology students volunteered their services to help with activities like manicures, bingo, social events and arts and crafts. The purpose is for students to link the course material to real world experience through civic engagement. We would like to thank Ms. Fortner and Marshall University for choosing Midland Meadows as their Community Partner. Our residents thoroughly enjoyed meeting the students and always anticipated their visits. We look forward to this becoming an ongoing partnership in the years to come.

Employee Of The Quarter - Barbara Turley

Barbara Turley has worked in the Dietary Department at Midland Meadows for three and a half years. She grew up in West Hamlin, WV and graduated from Guyan Valley High School. Barb has been married to Percy Ray Turley for 53 years and has eight children, fifteen grandchildren and ten great grandchildren. Her hobbies/interests include being with family, reunions, holiday dinners and birthdays. Barb likes everyone she works with and really enjoys daily interaction with the residents. She said, "My Employers are the greatest to work for." Congratulations Barb and thanks for all your hard work and dedication. We are happy to have you as part of our Midland Meadows team!
