

## The Meadow House Memory Care Unit Opening February 2013

As part of our expansion, The Meadow House Memory Care Unit will be open in February 2013. We will have 30 studio apartments. Our activities, staffing and food choices will all be specific to residents with memory issues. In our current community, Amy and her staff plan activities for all of our residents. We have some folks that still drive, we have some folks who need skilled nursing, and then we have a lot of folks who are in the middle. As a result not all activities are suitable for all

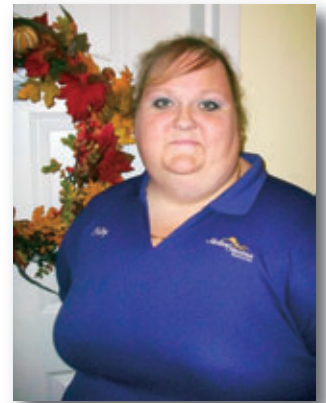

residents. In the Meadow House ALL activities will be specific to our folks who live there. It will be a “social” model versus a “medical” model. We will provide healthcare just as we do in our current assisted living, but it will be delivered in a “team” approach. Our staff and residents will be “doing life together activities”. It is a wonderful way to provide quality care to our residents with Dementia, Alzheimer’s and Memory Issues. If you have any questions please call me or stop by. I would love to give you a tour.
